THE CLASSIC URN-VAULT

DISTINCTIVE MATERIALS

MacKenzie products are hand-crafted from a precise blend of stone, resin and color pigments which emulate natural elements. Materials are carefully selected for their inherent strength, intrinsic beauty and enduring luster.

Marble

Marble has been used for centuries by artists and designers because of its timeless beauty and remarkable durability.

Onyx

Onyx is a translucent, semi-precious gemstone of quartz variety with extremely fine and intricate crystal formation.

Granite

Granite is formed deep below the earth's surface, where extreme temperatures reveal mineral grains with unique splendor.

Stone-tone

Stone-tone is comprised of solid composite materials, texture finished by hand with a stone-like paint coating.

Your selection of a MacKenzie memorial urn provides a timeless and meaningful tribute to a loved one. Each of eight silhouettes features graceful lines and is crafted from distinctive yet durable materials and finished in a wide array of soothing colors.

MacKenzie urns are as versatile as they are beautiful. These urns serve as a focal point during a memorial service, and are appropriate for in-home display, as vessels for burial, or as a lasting tribute after a loved one's ashes have been scattered. All MacKenzie urns are easily personalized and are designed to fit within variously sized niches and columbarium.
